

Vacancy Data Manager

As a Data Manager at OCS Consulting you will be part of a team that is responsible for the data management of (clinical) trials. Your activities will consist of providing timely and professional ongoing management of clinical trial data of phase I, II, III and IV (clinical) trials. Our clients are active in the life sciences sector, e.g. pharmaceuticals, nutrition and medical devices. Activities are undertaken at the clients' offices or at OCS' office in 's-Hertogenbosch, the Netherlands. A combination of both is possible—always in agreement with the client.

Your main responsibilities are:

- Designing electronic CRFs.
- Providing Data Management Plans.
- Designing & validating clinical trial EDC databases and associated edit checks.
- Identifying & resolving errors and inconsistencies in CRF data.
- Maintaining the Study Workbook to ensure consistently high standard database(s) with respect to cost, quality and timelines.

Alignment with the clinical study teams to locate documents related to the trials, provide support with specific questions related to trial data and its documentation and providing coded data to the medical monitor, can also be part of the job.

Successful candidates will have:

- An academic degree in a scientific or technical discipline (e.g. health science, information technology, or biology).
- Experience in clinical data management.
- Experience with Clintrial, or a similar clinical data management system.
- Experience with CDISC/CDASH is preferred.
- Experience with SAS or similar software is preferred.
- Demonstrated ability to take initiatives, work independently and precise.
- Fluent in English, both spoken and written.
- An enthusiastic and motivated personality.
- An independent and pro-active attitude.
- Excellent communications skills and ability to work within a multidisciplinary project team.

What do we offer?

Above all we offer the chance to work for the leading companies in the life sciences industry. To ensure you are equipped for the task, we offer you the required training and exposure to experience and motivated colleagues who can teach you the tricks of the trade. Naturally we offer you a job with excellent conditions

OCS Consulting is an IT consultancy located in 's-Hertogenbosch. We specialise in the use of SAS software operating mainly in the Finance, Retail, Life Science and Government industry.

We continuously invest in the quality, flexibility and creativity of our business and our people. This allows us to contribute to the success of our customers. With our extensive experience and expertise we are able to be the difference and support our customers in getting the most value from their investment in SAS software.

Characteristic for the way we work is our creativity that allows us to do more with the available resources.
