

Are you looking for your next career move into IT Consultancy?

## (Senior) SAS Developer

OCS Consulting is a successful IT Consultancy looking to recruit a permanent Senior SAS Developer who is passionate about their career and experienced in delivering excellent solutions. As a Senior SAS developer you will join existing teams undertaking a variety of interesting client projects. Next to the role of SAS developer you may be requested to undertake the role of technical team lead or perform the role of quality assurance.

Activities are undertaken at the clients' offices or at OCS' office in 's-Hertogenbosch, the Netherlands. A combination of both is possible—always in agreement with the client. As a SAS Developer you have sound knowledge of the SAS programming language. You know what it means to work in a standardised environment and are aware of the importance of quality. You are able to deliver within the expected timeframe. Furthermore you know how to adapt to your working environment: formal when required, informal when possible.

### The successful Senior SAS Developer should have:

- A Bachelor or Master degree related to the area of IT or sufficient experience with IT.
- At least three years of experience with the SAS programming language.
- A good understanding of business processes and information flows.
- The capacity to act as a (technical) team lead.
- Full professional proficiency in the English language, both spoken and written.
- An enthusiastic and motivated personality.
- An independent and pro-active attitude.

### In return we offer:

- A competitive salary, pension and flexible benefits package
- Career based training and career development program
- The opportunity to work on a number of different client projects

---

**OCS Consulting** is an IT consultancy located in 's-Hertogenbosch. We specialise in the use of SAS software operating mainly in the Life Science, Finance, Retail and Government industry.

We continuously invest in the quality, flexibility and creativity of our business and our people. This allows us to contribute to the success of our customers.
