

Vacancy SAS Application Maintenance Consultant

As a SAS Application Maintenance Consultant at OCS Consulting, you are responsible for supporting and maintaining the SAS Intelligence Platform for our clients. You combine in-depth knowledge of the SAS system with a good understanding of methodologies such as ITIL & ASL, in order to achieve an optimal, smooth running and stable SAS environment. A typical assignment ranges from incident and problem management towards service improvement and professionalisation, and from release management towards system monitoring.

You are motivated and passionate about setting up and maintaining complex, robust software environments. You have a pro-active and service oriented attitude, excellent communication skills and you are aware of the importance of quality, continuity and understand the necessity of documentation.

Successful candidates will have:

- A Bachelor or Master degree with an IT-related specialisation.
- Professional experience with the configuration and maintenance of computer systems and applications.
- Experience with various operating systems.
- Experience with ITIL or ASL is preferred but not required.
- A pragmatic, structured, problem solving approach and a client orientated mind set.
- Full professional proficiency in the English language, both spoken and written.
- An enthusiastic and motivated personality and an independent and pro-active attitude.
- Relevant certifications or the willingness to obtain these.
- Experience with software of the SAS Institute is required.

What do we offer?

Above all we offer you the chance to work with the leading organisations in their industry. To ensure you are well equipped for the task, we offer you the required training and exposure to experienced and motivated colleagues who can teach you the tricks of the trade. Naturally we offer a position with excellent conditions.

OCS Consulting is an IT consultancy located in 's-Hertogenbosch. We specialise in the use of SAS software operating mainly in the Life Science, Finance, Retail and Government industry.

We continuously invest in the quality, flexibility and creativity of our business and our people. This allows us to contribute to the success of our customers. With our extensive experience and expertise we are able to be the difference and support our customers in getting the most value from their investment in SAS software.

Characteristic for the way we work is our creativity that allows us to do more with the available resources.
