SAS[®] Analytics Pro software (on SAS Viya[®])

SAS Analytics Pro software Capabilities

An easy-to-use, yet powerful capabilities for accessing, manipulating, analysing and presenting information – for cloud and on-site deployment. Plus available advanced statistical techniques.

- Data management & statistical analysis
- Docker container, easy to deploy on a laptop, a server or cloud
- Ideal when moving from PC SAS or programming-only
- SAS Studio: enhanced log viewing, dataset exploration, collaboration with Git & snippets, any data source of choice

Deployment

After a requirements intake, OCS Consulting can offer you with 2 ways to deploy your SAS Analytics Pro software software:

Basic deployment

Out-of-the-box, to be completed in 8 hours Available at a fixed price

- i. Provide system requirements document.
- ii. Validate system requirements & access to the system.
- iii. Deploy SAS

Bespoke deployment

- i. Bespoke user requirements & validation intake
- ii. Provide deployment proposal
- iii. Provide system requirements document
- iv. Validate system requirements & access to the system
- v. Deploy SAS
- vi. Post configuration(s)
- vii. (Optional) validation

Managed Services

After deployment, OCS Consulting stays with you, leveraging our strength in the European and global market. Our Managed Services team ensures the validated maintenance of your Statistical Compute Environment (SCE), supporting you every step of the way.

OCS Life Sciences

We offer unique expertise across the entire lifecycle of SAS solutions, with a focus on the Life Sciences industry. Our team of certified professionals in SAS and CDISC, with PhD and MSc backgrounds, is ready to support you with high-quality Clinical Data Science and Clinical IT solutions.
