

Interested in gaining valuable knowledge and skills directly from CDISC?

**CDISC is organising public training
courses in Leiden, the Netherlands,
from 11 – 15 September 2017,
hosted by OCS Consulting.**

CDISC PUBLIC TRAINING COURSES

Authorized CDISC training is only available from the CDISC Education team, and is identified by the CDISC Education logo. This logo is your assurance that the training has been developed by and will be delivered by CDISC staff or qualified industry experts who have passed a rigorous qualification process.

Should you have any questions about this event please contact CDISC directly at training@cdisc.org.

**Register at www.cdisc.org/education/public-courses by 12
June 2017 to take advantage of 10% early bird discount.**

Schouwweg 10**

This training event is geared toward anyone working with data in the medical research domain including statisticians, clinical data programmers and clinical data managers. You will learn how CDISC standards can streamline clinical research and how it can be implemented in your daily work. This event will also give you an opportunity to network with your peers while you gain valuable knowledge and skills directly from CDISC.
